

LOBBYLINK

COMING SOON · ₱25 / UNIT / MONTH

Intercom for condos and subdivisions. No handsets, no wiring.

WHAT IT DOES

- Residents call the guard desk from their own phone — voice and chat
- Guard console: every unit in one list, click-to-call, unread badges
- Gate QR — a visitor rings the unit with no app and no sign-in
- Building-wide announcements and per-unit chat history
- Encrypted peer-to-peer voice — calls are never recorded

“The lobby desk, on the phone everyone already has.”

01

A resident taps Call Guard

One big button on their phone. It rings the desk.

02

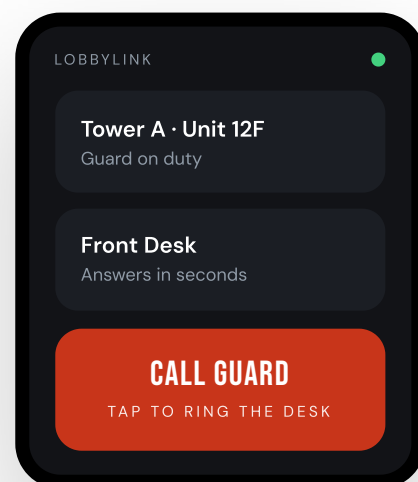

The guard answers from the console

Every unit in one list — or the guard calls the unit.

03

A visitor scans the gate QR

No app, no sign-in. They ring the unit and talk.
